

PAOLA LENTI

The Company was founded in 1994 in Meda, the main production district for contemporary furniture in Italy; its collections comprise today seating, rugs and architectural structures for the indoor and outdoor use, conceived to meet the most diverse requirements.

Paola Lenti is recognized worldwide for the highly innovative imprint that the company has given to its fabrics and its high-end contemporary products, which are marked by a timeless design aimed to balance usefulness and beauty, functionality and aesthetics.

Studying the yarns characteristics and performances and experimenting different materials have allowed the company to develop over the years a wide range of high tech fabrics for the exteriors and, more recently, for the interior: signature upholstery textiles that represent a unique proposal because of the raw materials used and the available colour palette.

Paola Lenti products are featured by essential forms and the care for each detail; they are the result of modern technological processes combined with ancient traditional techniques, which make them versatile objects offering to a high level of personalization.

In almost 30 years of activity, the Company has gained a strong experience in the residential sector. Through an ongoing research activity, aimed to reach high performances yet respecting the environment, Paola Lenti has built a specific know-how also in the yachting and marine sector: today the company is in a position to offer custom products according to the requirements of architects and shipyards, with whom, over the years, it has established a good cooperation relationship.

Many of the Company products have received prestigious recognitions, such as: the Red Dot Award for the sofas Move, Uptown and Harbour, for the Telar seating and for the Kanji table; the German Design Award for the sun beds Daydream and Rams and for the Kabà sofa; the Good Design Award for the seating series Portofino and Lido, for the Bistrò parasol and for the shading structure Pavilion. Many products have been selected to be part, over the years, of ADI Design Index: among them, in 2021, the Sun chaise lounge.

The Company turnover amounts today at € 36 M, 20% of which in Italy and 80% abroad. Paola Lenti employs 40 people dedicated to administrative and commercial roles and 65 people to production, totaling 105 professionals. The headquarters in Meda is divided into three production areas, adding up to 8,000 square meters, while the exhibition area exceeds 2,000 square meters, part of which indoors and part in a real garden.

Paola Lenti collections are today distributed in over 60 Countries by some 300 among the most important showrooms worldwide as well as in the many flagship stores.
