

WHAT'S HOT NOW
OUTDOOR LOUNGING

These days, you can make your patio as stylish as your living room with comfortable sofas, lighting and rugs. Designed to hold their own in the face of the elements and treated against mildew and colour-fading UV rays, they can, in some cases, be left out all year round and simply jet-washed. Alternatively, you can buy outdoor upholstery fabric that's velvet-soft as well as machine washable. Think of your garden as a whole new room to decorate!
