

► **DIAMOND**
BY FOERSOM & HIORT-LORENZEN
FOR CANE-LINE

With the new Diamond collection of outdoor furniture, Foersom & Hiort-Lorenzen emphasizes the importance of choosing the right materials. Diamond is a happy marriage between Cane-line Tex, a coated polyester sling material, and QuickDryFoam cushions, which provide maximum drainage and air circulation, allowing the furniture to dry in a flash after rainy spells.

◀ **BALMORAL**
BY NICHOLAS CONDOS
FOR HARBOUR

Not your ordinary DIY kit, Balmoral can be arranged to form any of a dozen configurations. The frame has a high-pressure compact laminate surface, and the tapered, laser-cut legs are made from powder-coated aluminium. Polymer slots support an interchangeable stainless-steel structure within the back and arm cushions. All fabric covers are removable.

► **FUSE**
BY MANUTTI

Mix and match with Manutti. Fuse offers endless possibilities for transforming your patio into a modern outdoor lounge. The centrepiece of the range is a stackable lounger with an adjustable arm and handy sunshade. The powder-coated aluminium frame comes in lava and white; cushions are covered in Lotus, a brand-new outdoor fabric.

◀ **MELLOW**
BY FRANCESCO ROTA
FOR PAOLA LENTI

Three structurally separate components – steel frame, cushions and upholstery fabric – are the building blocks of Mellow. Francesco Rota maximized the functional aspect of his design by making these components easy to use, to clean and, eventually, to discard. The machine-washable upholstery fabric is available in a variety of colours.

► **PILLOW**
BY STEFANO GIOVANNONI
FOR VANDOM

Another 100%-recyclable choice, Pillow has not only a characteristic shape but also a tough, temperature-resistant, roto-moulded polyethylene frame that will spruce up any indoor or outdoor space for years to come. Pillow comes in white, black, grey, brown, dark grey, red, green, orange, pink and ice; and in matte and shiny finishes.
