

kitchenbath

Carrara marble appears with knife-edge detailing on counters in the kitchen and bathrooms. The same marble is used for the surround of the master bath's whirlpool tub and the new mantelpiece for the dining room's existing fireplace. Cabinetry is ebonized oak. Walls are unfailingly white.

OK, not unfailingly. In the moody powder room off the kitchen, cocoa-brown suede wall covering meets a live-edge walnut vanity and a travertine vessel sink.

—*Edie Cohen*

Clockwise from top: Suede upholsters the headboard of the custom bed in the master bedroom. Its bathroom has limestone flooring. The tub offers whirlpool settings. In the powder room, a custom travertine sink stands out against walls covered in suede.
